

**Glide 01**  
for Carpet floor

**Glide 02**  
for Wood and Marble floor (Felt)

**Glide 03**  
for Concrete floor (Rubber)

**STEP 1.**  
Remove the backing from double-sided tape and stick the chosen pad into the glide.

**STEP 2.**  
Turn the desk upside down.

**STEP 3.**  
Screw in the glides into the desk feet.

**STEP 4.**  
Flip the desk upright and level the glides as needed.

These glides are an important part of the desk for proper function, stability and floor protection.
